

JUNIOR AVIATION BUSINESS ANALYST (F/M/X) 25-40 HOURS / ALSO FOR STUDENTS

At Avcon Jet, we are dedicated to offering our clients turnkey solutions in business aviation that provide maximum flexibility. Since our founding in 2007, we have become one of the most dynamic companies in the industry in Europe, operating 100 aircraft worldwide. Our clients benefit from a wide range of business aircraft models, a global network of branches, and our reliable team of aviation experts.

Now it's your turn!

YOUR TASKS

- Database maintenance and structuring: Ensuring the accuracy and up-to-date status of data in internal systems and databases. Assisting in the efficient structuring and maintenance of data to enable smooth analysis.
- Data analysis & reporting: Contributing to the analysis of operational data to optimize flight operations, costs, and service quality. Creating simple reports, dashboards, and visualizations with BI tools.
- Market and competitive analysis: Researching and preparing relevant information on market trends, competitive developments, and business opportunities to support strategic decisions.
- Supporting management: Creating reports, presentations, and decision-making tools to facilitate data-driven processes and strategic decisions.

These tasks offer you the opportunity to gain valuable experience in the aviation industry and make an important contribution to business optimization.

INTRIGUED?

If you identify with the position and have the necessary qualifications, we look forward to receiving your application at c.brandstetter@avconjet.at. Please include "Junior Aviation Business Analyst" in the subject line.
